***Reasons for Allowance***

1. The following is an examiner's statement of reasons for allowance: With respect to independent claims 1, 7 and 13 each of these claims has been amended by applicant to recite that, determining an end of execution of the image input job; and after determining the end of execution of a first image input job, permitting the input of a second image input job during execution of the image output job corresponding to the first image input job, and then starting the second image input job while the image output job corresponding to the first image input job is being executed.

Applicant's amended subject matter as indicated in claims 1, 7 and 13 has been fully reviewed. No new matter has been added, and a search has been updated. For the reasons noted above each of independent claims 1, 7 and 13 are still patentably distinguished over the prior art. Therefore, claims 1-21 are allowed.
